

LIFESTYLE DENTAL PLANS

Welcome to Lifestyle Dental Plans! Lifestyle Dental Plans are specifically designed to complement our wellness-inspired group health benefits program. Lifestyle Dental is your starting point for great group dental benefits, integrated into a program focused on prevention, lifestyle change, and health improvement. In fact, dental care and routine dental exams often assist with the early detection of serious diseases or conditions.

Dental coverage is important - without it, many employees may never visit the dentist at all. Our Dental Plans are designed to offer all that you will need in terms of prevention, basic and major dental procedures, as well as orthodontia. Dental benefits do not need to be complicated and our program is designed with some straightforward, cost-competitive plan designs - in the same wellness-inspired spirit of our medical and vision programs.
